This is the earliest known Morgan County Tax Record found to date. This old book, discovered in the attic of the courthouse, was copied and indexed by members of the Jacksonville Area Genealogical and Historical Society.

Old record books discovered, in the attics of times past,
Sometimes helps refresh the memories of present minds
Of those happily searching clues of ancestral lines.

May this tax record help many find relatives at last!

*Townships are NORTH of Base Line *Ranges are WEST of Third Principal Meridian

"fr." = fractional parts of a township of 36 square miles

"X" = Parallel Correction Line, an offset every SIX miles to conform township lines to earth's North-South poles.

The lands lying in Morgan County, subject to taxation in the year 1836, will be separated as to the lands lying in Cass County after 1837 and Scott County in 1839.

The 3-three-mile-strip will be separately indicated since it belonged to Morgan County until 1845 when it was given to Cass County. The first individual named was the person who received the original patent from the U.S. government.

TN = townships North of the Base Line; RW = ranges West of the Third Principal Meridian. Fr = Fraction, meaning that on the north and west sides of a township there was less than 80 acres in that particular piece of land, or less than 160 acres, as the case may be. No. 1, 2, etc. indicates a Lot number assigned to the pieces of land with short acreage.

[This is the end of Ranges 8, 9 and 10 of land in Morgan County, which then included Cass and Scott, which was taxable in the year 1836. It was a law that land purchased from the government was not taxed for the first five years of ownership. Therefore, lands purchased in 1832, 1833, 1834, 1835 and 1836 are not reflected in this tax record of 1836.]

PART II: The lands lying in Morgan County, subject to taxation in the year 1836, will be separated as to the lands lying in Cass County after 1837, and Scott County in 1839.

The three-mile-strip will be separately indicated since it belonged to Morgan County until 1845 when it was given to Cass County.

The first individual named was the person who received the original patent from the U.S. government; the second was owner in 1836.

TN = township North of the Illinois Base Line; RW = ranges West of the Third Principal Illinois Meridian.

FR = Fraction, meaning that on the north and west sides of a 6-mile square township there was less than 80 acres in that particular piece of land, or less than 160 acres, as the case may be. No. 1, 2, etc, were lot numbers assigned to the fractional pieces of land with short acreage.

To estimate Road Tax, divide the County Tax by 2, since it was half as much.

Part I includes all those Townships in Ranges 8, 9 and 10.

Part II includes all those Townships in Ranges 11, 12, 13 and 14.

CASS COUNTY

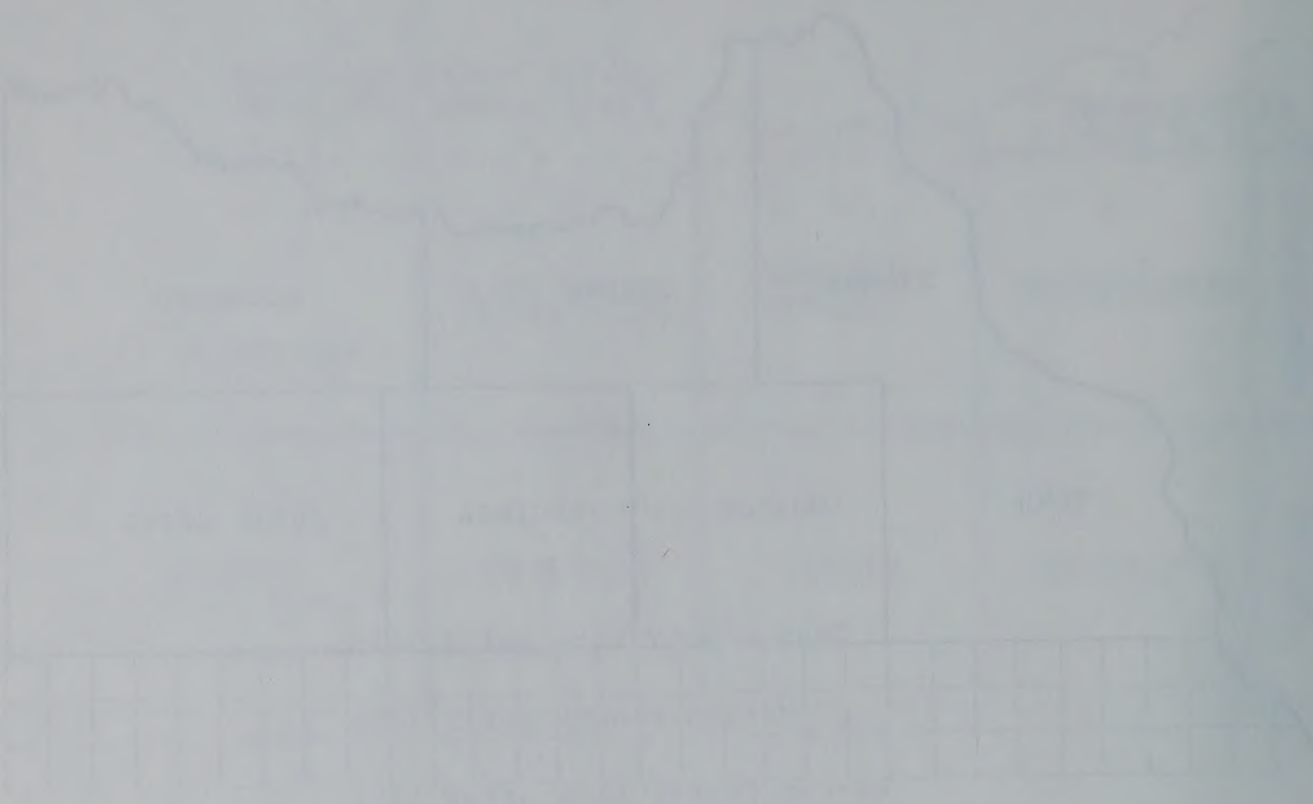

Joshua P. Crow, Amos Bonney and George F. Miller were elected commissioners of the newly formed County of Cass on the seventh day of August, 1837. Convening August 14, 1837, the oath of office was administered to them by Thomas Pogue, an acting Justice of the Peace, in and for said County. The commissioners proceeded to divide the County into six Magistrate's and Constable's Districts, (now 11 Townships). The "three-mile-strip" running East and West across the South of the County was not made a part of Cass County until May, 1845.

EARLY CASS COUNTY

Joshua P. CROW, Amos BONNEY and George F. MILLER were elected Commissioners of the newly formed County of Cass on the seventh day of August, 1837. Convening August 14, 1837, the oath of office was administered to them by Thomas POGUE, and acting Justice of the Peace, in and for said County. The Commissioners proceeded to divide the County into six Magistrate's and Constable's Districts, as shown on the map.

The THREE MILE STRIP running East and West across the South of the County was not made a part of Cass County until May, 1845. Prior to that time, deeds and other records will be found in the Morgan County Courthouse.
